

YEDA RESEARCH AND DEVELOPMENT COMPANY

Access to the online software tool known as PROSS (Protein Repair One Stop Shop) is made available without charge to non-profit research institutions by the Weizmann Institute of Science ("Institute") subject to the following terms.

1. Institute may condition access to the PROSS tool upon completion of a registration process and reserves the right to refuse access to any entity at its sole discretion.
2. You retain your rights, if any, in the information such as protein structures provided to the Institute for processing by PROSS.
3. You and your institution may use and publish the results provided to you by the Institute solely for lawful academic non-commercial purposes, excluding commercially sponsored academic research. Results may not be used in humans nor for any diagnostic, prognostic or therapeutic purposes. All other rights in the results, including ownership rights, vest in and are reserved by the Institute. If you or your institution wish to patent or commercialize the results, you must obtain the Institute's prior written consent.
4. Your publications concerning the use of the results shall include an appropriate acknowledgment using the following citation: Goldenzweig, et al. Mol. Cell 63:337-346.
5. You assume the full responsibility for use of the results provided to you. The results are provided "as is" with no representation of any kind, including in respect to the accuracy, completeness, freedom from errors, merchantability, fitness for a particular purpose, safety, and non-infringement of third-party IP rights. The Institute and its officers and employees bear and shall bear no liability in respect to the results and any use made by you, your institution, and your assignees and transferees.
6. You confirm that the contact details submitted as part of this registration may be included in a database maintained by the Institute to facilitate access to the server and monitor usage to facilitate access to the server and monitor usage.
